## ***On Monday January 16<sup>th</sup>:***

All the participants were warmly welcomed by the Türkiye Coordinator and informed about the programme and objectives of the project. Later teachers and students from other participating countries also introduced themselves.

The programme started with the welcome speech of the Turkish director, followed by the coordinator and the teachers; after that the students made presentations about *Types of Digital Communications. Which ones are the most common in your country and Why? And Types of mobile applications that students use, which ones are your favourites and why? Problematic use of mobile phones, type of mobile applications Students can create*

After a short break; Our students showed 2 nice videos about Turkey and Rize to the other participants and later; general quiz based on the facts about digital Communications and devices was played by Only Czech and Romanian students.

Besides, our students made their other presentations about Mobile Applications for learning about the EU. Which Mobile Apps are popular in EU Countries compared to your country? Digital Technologies. Importance of Digital Technologies for the Economy. Contributions of Education to Digital Technologies and the online meeting ended by some individual activities

## ***On Tuesday January 17<sup>th</sup>:***

All the participants were warmly welcomed by the Romanian Coordinator and informed about the programme and objectives of the project. Later teachers and students from other participating countries also introduced themselves.

The programme started with the welcome speech of the Romanian director, followed by the coordinator and the teachers; after that the students made presentations about *Types of Digital Communications. Which ones are the most common in your country and Why? And Types of mobile applications that students use, which ones are your favourites and why? Problematic use of mobile phones, type of mobile applications Students can create*

After a short break; Romanian students showed some nice videos about Romania and Tinca to the other participants and later; general quiz based on the facts about digital Communications and devices was played by Only Czech and Turkish students.

Later, Romanian students made their other presentations about Mobile Applications for learning about the EU. Which Mobile Apps are popular in EU Countries compared to your country? Digital Technologies. Importance of Digital Technologies for the Economy. Contributions of Education to Digital Technologies and the online meeting ended by some individual activities

## ***On Wednesday January 18<sup>th</sup>***

All the participants were warmly welcomed by the Czech Coordinator and informed about the programme and objectives of the project. Later teachers and students from other participating countries also introduced themselves.

The programme started with the welcome speech of the Czech director, followed by the coordinator and the teachers; after that the students made presentations about *Types of Digital Communications. Which ones are the most common in your country and Why? And Types of mobile applications that students use, which ones are your favourites and why? Problematic use of mobile phones, type of mobile applications Students can create*
